

## UP TO 60 MINUTES OF PROTECTIVE BREATHING

Essex PB&R Corp.'s SCU was designed with the corporate traveler in mind. What would you do in a smoke or fire incident aboard a corporate or private aircraft? You need minutes to breathe, with decompression protection\*, to escape safely. The proven way is to don the Essex SCU.

## EASIEST TO WEAR AND TO USE

Our SCU takes only seconds to don and doff. Its unique design eliminates the need for an oral/nasal mask that wastes precious time to fit properly around the nose and mouth. The SCU will provide up to 60 minutes of respiratory protection (supply depends upon your size and exertion level) while allowing you the extra time to see, hear, talk, move freely, and escape.

The SCU is more than extra minutes... It's *survival*.

## SCU PRODUCT DATA
