

UP TO 60 MINUTES OF PROTECTIVE BREATHING

Essex PB&R Corp.'s VRU was designed with you in mind. Imagine a smoke-clogged office, or being trapped in a high-rise building fire, or becoming disoriented in a carbon monoxide filled home. You need to escape. The proven way is to carry our VRU with you in a briefcase, purse, backpack or in your jacket pocket and use it to survive. You need minutes to escape and we give you a lifetime with our time-tested smoke hoods.

EASIEST TO WEAR AND TO USE

Our VRU takes only seconds to don and doff. Its unique design eliminates the need for an oral/nasal mask that wastes precious time to fit properly around the nose and mouth. The VRU will provide up to 60 minutes of respiratory protection (supply depends upon your size and exertion level) while allowing you the extra time to see, hear, talk, move freely and live.

It's that simple. VRU: To Breathe. To Escape. To Survive.
